

# Para Los Niños Trade Secrets

## Professional Development on Project Based Learning

Spend a few hours with us and we will share how we utilize an integrated curriculum to do project based learning (PBL) with a Science, Technology, Engineering, Art and Math (STEAM) focus. Participants will receive an overview of PBL, observe classrooms engaged in PBL and debrief with an in-house Pedagogista. Participants will develop an understanding of PBL and leave with a planning tool to begin implementing PBL.
