	<p>A C or better in Spanish 1. Counsel students receiving a C- that it will be very difficult, and they'll have to work very hard. Also students themselves should be asked to reflect on why they have earned the grade they have. If they have a C- because they do no homework, but understand the material and are successful on tests, they should be fine going on. But if they have a C- because they do every assignment, but they fail all the tests, they should perhaps reconsider going</p>

Timestamp	What are the prerequisites needed in order for a student to be recommended into AP Spanish?
6/11/2014 18:13:17	The student must earn a C+ or higher in Spanish 3. Students with a C+ should be advised that the course is very rigorous and both the student and teacher should try to determine together if this is the best path for them.
6/11/2014 19:50:18	If by the end of Spanish 3 the student is able to recognize the different tenses and I feel they have a strong understanding of the language then I recommend them to move on to 4AP. By this time they should also be able to read and understand what is being read. If I feel the student needs one more year I counsel them to take Spanish 4. All in all, if the student passes the class with a C they have the right to move on to Spanish 4AP.
