School Site Council Minutes

10/23/13

**Review of Title I Information Presentation** - We are a federally funded school; we must meet state academic standards; uses funds for 3 instructional aides, 1 for the computer labs and 2 for K-5 classrooms; there will be no API scores this year, this affects how the plan evolves for next year.

**Discussion of School Site Plan** – 65-90% mastery of ELA and Math per 2012- 2013 CST data; set goal #5 at 90% of students receiving intervention; analyzing how students that are economically disadvantaged or EL are affected by changes in standards.

**Approval of School Site Plan** – Kim to make changes and then email comments

Will schedule next meeting in January
